Forest School

We are delighted to be running Forest School this year in all classes and plan to programme 6 sessions per class. Please see details below:

Helen Dascoli will lead the sessions and meet with teachers to make links, where appropriate, with the curriculum as much as possible. We will also use Forest Schools to incorporate language and our school values using a range of activities. It will cost £2 per child per session and we will send out a separate letter to each class the term before they start with more information. The following schedule has been planned.

Term 2- Wednesday afternoons - Beech

Term 3- Wednesday and a few Fridays - Holly

Term 4- Fridays - Willow

Term 5-Wednesdays – Catkins

We will need adult helpers so a rota will go up for each term for those interested to sign up. We will need to meet the adult pupil ratios for the sessions to take place. Children will need wellies, waterproof trousers, jackets and warm clothing to take part.

The Key Stage 1 classes will also be going on weekly wellie walks in Term 2 and details of this will follow shortly.

Football Club

Mr Gratwick has offered to run a football club at lunchtimes on Thursdays for children in Holly class. He is already setting up matches with local schools so that the children can compete. The children will need shin pads, football socks and boots. If you are able to help on a Thursday lunchtime to take the children to the Recreation ground for this, please let the office know.

Whole school - 'Brilliant Beginnings' for next term's topics

What do you already know? I wonder what you can find out. How could you share your knowledge with your class?

To encourage high levels of engagement and motivation for all Firle School learners, we are inviting all children to explore and research their next topic over the half-term holiday break. This could include chatting to/questioning family and friends, researching books/the internet or visits to local museums/art galleries etc. We would value your support in enabling your child/ren to record what they know and/or find out, in any way they like e.g. picture, poster, notebook, scrap-book, and video. Each classroom will have a fresh topic board, ready to display children's work in the first week back.

Class Topic Information

Holly Stargazers Earth and Space - investigating the planets and significant scientists/astronauts

Beech Mighty Metals Magnets - properties of different metals and materials. Forces - what makes toys and playground equipment work?

Willow Splendid Skies Weather and the seasons – how our environment changes. What causes different weather patterns – clouds, storms etc?

Catkins Will You Read Me a Story? - Fairy tale characters, castles and kingdoms, goodies and badies – engross yourselves in story land (books, panto, theatre, film). What traditional tales do you know? Can you remember repeated phrases (What big ears you have1) Can you re-tell a story in the correct order?

Children – remember, you will be sharing what you know and find out with your class. How will you do that? This is your chance to get creative!
