

Dear Parents and Carers

26th February 2020

STEM WEEK 9th – 13th March 2020 OUR DIVERSE WORLD

Following on from the success of our STEM week last year, we are planning another week, in line with the national **STEM week, from 9th to 13th March**. This gives the children the opportunity to link Science, Technology, Engineering and Maths work, through the topic 'Our Diverse World'. We will also be including some art in this (STEAM).

As part of this week, we would like to show the children how these subjects might be used in a variety of jobs. Therefore, if your work involves any science, technology, engineering or maths, we would love you to come in and tell the children what you do, and how that subject fits in to your work.

During the week, there will be opportunities for both children and parents to see what other classes have been doing. We would therefore like to invite you to an **'open afternoon' from 2:45 on Monday 16th March**.

In preparation for this week, we would be grateful for any of the following recycled materials:

Holly Class would like bamboo, lolly sticks, tin foil, straws, plastic bottles, string and cardboard. Cherry Class would like cardboard boxes, ie cereal and show boxes.

It should be a really exciting week and we hope to inspire the children in to the world of STEM and the possibilities for their future.

Yours faithfully

Mrs Groves
STEM Leader

Re: STEM week 9th to 13th March

I am able to give a short (10 minute) presentation / talk about how science / technology / engineering / maths (delete as appropriate) fit in to my work.

Preferred day: Mon 9th March

☐

Tuesday 10th March

☐
